

2024 Pend Oreille County Republicans

Plank #12 – Campaign Finance Reform

Revised 3/24/2024

Money is the lifeblood of politics.

We believe;

1. In full disclosure and easy access to the records and amounts and sources of all campaign funding or contributions without infringement by any state or federal government laws or requiring FOIA request.
2. All funding from traditional, political action committees (PAC) and business must be subject to strict reporting rules and complete transparency through public disclosure compliance (PDC).
3. The PDC committee of the state should be an equally staffed bi-partisan administrative committee appointed by the majority and minor legislative leaders of the state Senate and House.

We oppose;

1. Campaign reform that restricts free speech.
2. Infringes or prohibits the right to open, public review of the voting records or positions of public office.
3. Limits on the individual or political action committee campaign donations.
